

Emergency Contact Information

Illini FS strives to keep their employees and customers safe, but we know we cannot prevent accidents from happening. In order to help our customers and employees during an accident, we have listed local, state, and national emergency phone numbers. We hope that you will never need these numbers, but in case you would we have them listed for your benefit.

Our Safety Department is located in Tuscola, IL. You can reach them at 217-253-2348 for any questions or concerns that you may have.

A release of a hazardous substance over 100 pounds should be reported to the three agencies (local LEPC, IEMA, and the National Response Center) within 15 minutes of discovery.
